- There will be 2 classes taking the test in the morning, and 2 classes in the afternoon. (Classes will alternate times each week.)
- These test that are done on computer will provide faster test scores and reports. (Within a week)

III. Math/Science Club Tour

Mr. Proveau led the members of the meeting outside to the Bell Tower Area where the Math and Science Club have put together their invention of "Going Green". They completed an eco-friendly project that would benefit the community and encourage other students to participate in "Going Green" projects of their own.

The area consisted of

- Butterfly Garden
- Goldfish Pond
- Bird Feeders
- Stumps as seats for community members/students

On Saturday March 26th the students along with their families, teachers, and other community members came to the school and worked on this project together. This is an awesome addition to LES! Our School is proud of the completion of this project.
